**Subject:** Canceled: SCAQMD-CARB-EPA initial follow-up call re: 2012 PM2.5 plans  
**Location:** Call-in # [Redacted] Conference ID [Redacted] EPA folks in Rincon room)  
**Start:** 6/4/2019 4:00:00 PM  
**End:** 6/4/2019 5:00:00 PM  
**Show Time As:** Free  
**Importance:** High

Hi everyone,

Cancelling this because I don't think we are all quite ready to have a follow-up call on the 2012 PM2.5 plans tomorrow. We already have another call scheduled for next Thursday 6/13 – hopefully we'll be ready to reconvene then.

I know SCAQMD is working on pulling together some information based on our last discussion. Just thought I would pass along my notes on the items we are hoping to get clarification on. I know that some of the information for certain years/pollutants is included in the AQMP but if it's possible to provide complete sets of information for all relevant pollutants and years (for the moderate and serious area plans) that would be very helpful.

If there are any questions, please let me know. Thanks!

For PM2.5 and precursors (NOx, VOC, SO2, NH3):

1. Clarify measures (baseline and new) and reductions relied upon to meet RFP through 2028.
2. Extend Table VI-C-5A to show RFP/attainment targets through 2028 QM.
3. Specify what rules are associated with which control measures and provide the status/timeline of rule development/adoption.
4. Provide an implementation schedule for SCAQMD adoption of rules for RFP per milestone/attainment year (2019, 2022, 2025, 2028) as was done for the 2006 PM2.5 NAAQS in Table VI-C-4.
